

# Quality Policy Statement

It is the policy of Roadphone Ltd and N.R.B. to provide customers with a high quality service and to meet contractual requirements, any relevant legal and statutory requirements and codes of practice, etc. including ISO 9001:2015 and ISO 14001:2015.

We seek to continually improve the effectiveness of the Quality Management System, which is reviewed during our Management Review Meetings, when we improve our existing quality objectives and establish new goals and objectives, wherever our system may benefit from doing so.

The on-going suitability of this Quality policy is reviewed during the Quality Management Review Meetings.

We utilise a process of continual improvement of its processes and products:

Staff are encouraged to review their working practices and suggest methods for improvement, where appropriate. In addition, all relevant processes are reviewed and improvements determined where practical on merit.

Product performance is reviewed via data collected from service returns, user surveys and in-house testing.

Every member of staff must be familiar with, and carry out, the procedures, which are applicable to their own area of work within the company.

The Quality Policy is issued and explained to all employees upon commencement of work with the company, and a copy is available in the NRB and Roadphone offices.

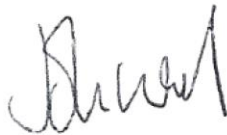

All staff are trained in the meaning, intention and implication of this Quality Policy.
